

(B) removing brain cells from said patient in need thereof after said administration;

B1
cont
(C) propagating said brain cells in vitro; and

(D) transplanting the propagated brain cells into said patient in need thereof.

RESPONSE

Applicant elects with traverse the claims of Group III (i.e., Claims 42, 52 now replaced by Claim 59, and 53). The format of Claim 52 has been modified since it previously was dependent on Claim 43.

It respectfully is urged that all claims could be conveniently prosecuted in the same application in spite of the different areas of classification indicated in the Official Action. Accordingly, the Examiner is urged to use her discretion under 35 U.S.C. § 121 and withdraw the restriction requirement since the search and examination of all claims is urged to be possible without serious burden.

A Petition for Extension of Time (five months) is being filed concurrently herewith.

The examination and allowance of Application are respectfully requested.

Respectfully submitted,

BURNS, DOANE, SWECKER & MATHIS, L.L.P.
